## Dear colleagues,

The Network for Congenital Uro-REctal malformations (CURE-Net) is a federal program to carry out systematic investigations on uro-rectal malformations focusing on anorectal malformations (ARM) and the exstrophy-epispadias-complex (EEC). The aim of CURE-Net is to use modern genetic and molecular biological research to understand the causes of uro-rectal malformations and to evaluate the postoperative treatment outcome and different aftercare procedures.

You are invited to join us for the **1<sup>st</sup> CURE-Net International Conference – October 21<sup>st</sup> to 22<sup>nd</sup>, 2011 and the 1<sup>st</sup> CURE-Net Patient Information-Day – October 23<sup>rd</sup>, 2011 in Heidelberg, Germany.**

We look forward to welcoming you.

With best regards,

**PD Dr. med. Stefan Holland-Cunz**  
Head of Paediatric Surgery  
Unit University of Heidelberg

**Nicole Schwarzer**  
Networkmanager CURE-Net &  
Chairwoman SoMA e.V.
